Subject: RE: WD East Chicago Check-In and Catch-Up - Sequential Water Sampling

Wanted to give everyone some numbers for home in both Zones 2 and 3 in East Chicago, that are "priority", and will have soil excavations and water sampling this fall:

Zone 3 - we started sequential sampling here in late September, and excavations started in early October. This zone is part of the original Superfund remedial action.

39 properties are listed as priority homes, and are slated for excavation this fall. (Lead level over 1200 ppb or Arsenic level above 69 ppb in top 6" of soil.)

3 properties refused water sampling (1 is a city owned park).

1 home cannot be sampled because of a whole house filter than cannot be bypassed.

THUS, 35 PROPERTIES WILL HAVE SEQUENTIAL WATER SAMPLING IN ZONE 3. (31 have already had pre-excavation water sampling; 6 have also had post-excavation sampling)

Zone 2 - we started sequential sampling in this zone last week, and excavations will start this week. This zone has a removal action memo that is in the signature process in HQ.

15 properties are listed as priority (same criteria as above).

3 properties are multi-unity apartments, and we will not be sampling those.

1 property is vacant, and we will not be sampling that.

2 properties are vacant lots.

THUS, 9 PROPERTIES WILL HAVE SEQUENTIAL WATER SAMPLING IN ZONE 2. (7 homes have already had pre-excavation water sampling conducted.)
